

Willem Smetsers (L101)

In previous editions there was a rather lively discussion of a "Port-Au-Prince" cancel on a US perfin (see *TPB*, January 1993, p. 23 and *TPB*, March 1993, pages 47 and 49-50). Here is another explanation.

This reply cover shown below was sent to Cuba, franked with a copy of perfin pattern H12. Because the cover could not be returned without Cuban postage, a Cuban stamp was added.
